

Unwavering Support in an Uncertain Time

Though our physical spaces are closed, library staff remain steadfast and innovative in our support of clinicians, researchers, and educators.

- We are continually working with vendors to **license resources and expand access** to collections temporarily to accommodate online educational needs during this period.
- Librarians are offering support through online **instruction**, consultations, and **drop-in office hours**.
- **Interlibrary loan and document delivery services** continue remotely, though limited to electronic materials.
- Library staff are available through our website chat box everyday from 10am - 5pm and anytime by email at AskYaleMedicalLibrary@yale.edu.

COVID-19 Information & Resources

COVID-19 Clinician Resource and Consumer Health Guide

A research guide curated by medical librarians containing clinically-focused resources, latest research, and consumer health information.

Online Resources for History of Medicine Research

A starting point for researchers at Yale and beyond to find history of medicine resources online.

COVID-19 Medical Student Elective Course

Medical librarians developed an intensive two-week elective focused on acquiring, appraising, and synthesizing information on pandemic-related topics.

Tools for Staying Current

CDC PubMed Search Alerts

Set up a PubMed search alert for COVID-19

Read by QxMD

Download the mobile app for latest research and follow specific journals or keywords such as "COVID-19" or "coronavirus"

Google Alerts

Set up an alert using the search string **COVID-19 OR COVID19 OR SARS-CoV-2 OR SARS-COV2 OR 2019-nCoV OR 2019nCoV OR coronavirus**

STAT+

For the latest coverage of biotech, pharma, policy, and life sciences news
