

**FEATURED**

A Busy Summer at the Medical Library

Medical librarians have been extremely busy this summer orienting and educating new fellows, residents, students, and faculty members across the medical campus and Yale New Haven Hospital.

**UPCOMING**

Upcoming NIH Data Sharing Policy Change

On January 25, 2023, the National Institutes of Health (NIH) will update its Data Management and Sharing Policy to further accelerate biomedical research discovery through scientific data sharing. Learn how the Medical Library can help ensure compliance.

**MEDICAL HISTORICAL**

New Gifts: Health and Lyme Disease Activism

The Medical Historical Library announced two new gifts detailing student and patient health care activism starting in the 1960s. Gifts include Dr. Michael Charney's papers related to student activism during his Yale career as well as the papers of Lyme disease activist Polly Murray.

EXHIBITION

Pasteur at 200

This new exhibition highlights Louis Pasteur's scientific work on vaccination, public health, and food safety that continues to have an impact on our lives today. *On view in late August*

COLLECTIONS

DEI Resources

Browse a collection of resources relating to diversity, equity, inclusion, and belonging curated by medical librarians and departments in the Yale medical center.

CONTINUING EDUCATION

Medical Library Workshops

Interested in learning a new skill? Check out the Medical Library's robust instruction calendar. All classes are free for Yale and YNHH community members.
