

From the Clinical Librarians

Dear colleagues,

Below please find a list of highlighted clinical resources available to you through the Medical Library.

As your dedicated librarians, we offer a range of personalized services to support you in your clinical practice and research. To learn more, please visit the [Support for Clinicians website](#).

Training & Events

Are you familiar with the training and events we offer? Our [Library Training & Events Calendar](#) lists our virtual and in-person instructional programming and allows for easy registration.

If you are interested in training specifically tailored for your academic and clinical work, we encourage you and your team members to [request classes or consultations](#) that would be valuable for your needs.

Additionally, we invite you to [subscribe to our once-a-month email](#) to have all upcoming instruction and events delivered to your inbox.

Highlighted Resources

[A-Z List of Medical Databases, Resources, & Tools](#)

Have you ever thought "I wish I knew where to find point of care tools?" or "I wish I had more patient education handouts to share?" If so, visit our A-Z List to find resources for many of your information needs and filter the results by content type.

[Mobile Apps](#)

Our licensed mobile apps bring medical resources to your fingertips. For instance, UCentral's mobile app gives you access to 5-Minute Emergency Consult, Johns Hopkins ABX Guide, Evidence-based Medicine Guidelines, Guide to Diagnostic Tests, Taber's Medical Dictionary, and more all on your phone or tablet.
