LECTURE SERIES

Public Health Week

National Public Health Week is April 4-11, but the medical library is celebrating all month long with virtual lectures on public health topics from guest speakers.

NOTABLE

Staff Publications

Medical library staff members have published 20+ authored and co-authored articles and book chapters in the first few months of 2022.

NOW AVAILABLE

Bert Hansen Collection

Thanks to an Arcadia grant, over 500 popular graphics from the Bert Hansen collection on medicine and public health are now available online.

Become a Medical Library Associate

Established in 1948, the Medical Library Associates have supported the medical library for over 70 years, helping enable its world-class services to the faculty, staff and students of the Yale Medical Center, today and for generations to come.

Membership provides the library with unrestricted support. Plus, Associates are granted special privileges, invited to annual lectures, and given physical access to the library and in-house use of our vast print and electronic resources.

Membership starts at just \$50/year.
