

## From the Clinical Librarians

Dear colleagues,

Below please find a list of new clinical resources available to you through the Medical Library.

As your dedicated librarians, we offer a range of personalized services to support you in your research. To learn more, please contact [clinical.librarians@yale.edu](mailto:clinical.librarians@yale.edu) or [use our webform](#).

### New Resources

**Health Care Administration Database** includes citations relating to hospital administration, insurance, law, statistics, business management, personnel management ethics, health economics, and public health administration.

**TRIP Pro** supports evidence-based medicine (EBM) by providing a snapshot of the current research evidence on a clinical topic. Search results are color coded based on the EBM pyramid, making it easy to identify the quality of the evidence.

**NEJM Evidence** is a new peer-reviewed journal published by the NEJM Group aimed at the evaluation of clinical research. Articles focus on validating existing clinical findings, improving the design of new clinical trials, and contextualizing clinical evidence.

**5Minute Consult** is a point-of-care tool developed for clinicians to quickly find evidence-based answers to support the diagnosis, treatment, and ongoing care of patients with 2,000 common diseases/conditions, drugs, and diagnostic and treatment algorithms

### Upcoming Office Hours

No appointment necessary, just drop in:

<https://yale.zoom.us/my/alyssagrimshaw>

- **November 6, 5-6pm**
- **November 16, 3-4pm**
- **November 20, 3:30-4:30pm**

We're available to discuss anything related to the library, such as finding articles and books, literature reviews and evidence synthesis projects, citation management, critical appraisal, reporting guidelines, and grey literature.
