

Top 10 Resources & Services for Clinicians

from the Cushing/Whitney
Medical Library

Learn about Clinical Information Services:
<https://library.medicine.yale.edu/services/clinical>

Or email: clinical.librarians@yale.edu

1. **Your Departmental Librarian**

Your departmental librarian helps find and acquire literature/resources for research projects and evidence-based patient care.

2. **Point-of-Care Resources**

Get access to UpToDate, ClinicalKey, VisualDx, Micromedex, etc.

3. **Mobile Apps**

Download apps for diagnostics, point-of-care, drug information, journal collections, etc.

4. **Classes & Tutorials**

Learn how to use library resources and optimally research medical literature. All classes can be offered as didactic sessions.

5. **Evidence Synthesis Service**

Our consultations and software enable an efficient and effective development of evidence syntheses, such as systematic reviews.

6. **Citation Management**

Classes and drop-in help for EndNote and other citation management systems.

7. **Off-Campus Access & Interlibrary Loan**

Access the library's online resources anywhere/anytime.

Interlibrary Loan provides free access to materials Yale doesn't own.

8. **Publishing Impact**

Access resources to help measure author and journal impact.

9. **Research Data Consultations**

Learn about data management solutions, sharing data and research software, and strategies for working with and visualizing large data resources.

10. **Bioinformatics Support**

Access bioinformatics resources, tools, consultations, training, and classes.
